DRAIN CLEAN LIQUID

For hard to reach blockages. Drain Clean® Liquid has been carefully formulated to clear heavily blocked drains and versatile enough to be used in toilets and sink filled blockages. The liquid technology allows the formula to penetrate through water and sink down to the blocked area.

For use in the Laundry, Kitchen, Bathroom or Toilet.

It's easy, no need to remove water from flooded drains.

DRAIN CLEAN HAIR UNCLOGGER

Perfect for the bathroom the Drain Clean® Hair Unclogger is formulated to dissolve hair, soap scum, detergents, grease and general build up found in slow running or clogged drains. The formula is safe to use regularly to prevent build up in drain pipes.

For use in the Laundry or Bathroom.

DRAIN CLEAN LIQUID ENZYMES

Drain Clean® Liquid Enzyme is an environmentally friendly bio-enzymatic drain opener which is an alternative to traditional hazardous products. It contains live bacteria that have been selected for their appetite for fats, grease, oils and soap scum that often cause clogged drains. These specially bred bacteria release enzymes that quickly liquefy and then digest grease, fats, oils and soap scum.

For use in the Laundry, Kitchen, Bathroom or Toilet.

DRAIN CLEAN ACTIVE ENZYME PELLETS

Drain Clean® Active Enzyme Pellets is a blend of different enzymes that target build up of organic waste such as fats, grease, soaps, detergents, hair and common other waste found in untreated drains, septic systems and grease traps. The all NATURAL and ENVIRONMENTALLY SAFE Active Enzyme Pellets break down and digest organic matter into smaller molecules, allowing natural occurring bacteria to easily break down and convert into CO2 and water. This process removes smelly odours and clears blocked drains naturally!

For use in the Laundry, Kitchen, Bathroom or Toilet.

DRAIN CLEAN ROOT CONTROL

Drain Clean® Root Control tablets and crystals prevent and clear root-blocked drain and sewers by travelling through to the point where the blockage has occurred. The powder dissolves where they are most needed and decompose the roots. It is completely harmless to trees & shrubs.

For use in the Toilet.

Size	Box Qty.	Item No.	Barcode

1Kg Crystals	6	3096359	9300764046360

DRAIN CLEAN SEPTIC TREATMENT

Drain Clean® Septic Treatment helps your septic system work as it should! Septic Treatment assists the natural bacteria in your septic to break down waste and destroy blockages. When we put detergents, grease and household waste into our septic system, it slows down or stops bacterial action, throwing the system out of balance. When this happens sludge build-up causes blockages and odour. Septic Treatment helps restore the bacterial balance naturally, ridding your septic system of annoying and embarrassing blockages and odour. Septic Treatment will not treat tree root problems.

For use in the Toilet.

DRAIN CLEAN CRYSTALS

For seriously blocked drains, the concentrated crystals are formulated to melt away cooking grease, fats, food particles and organic matter found in kitchen sinks.

Drain Clean® Crystals can also be used to clear soap scum and buildup commonly found in bathroom drains. Our specially formulated crystals are also available in our One Dose jar & One Shot sachet. This means no more measuring and no more mess, making it a smarter and safer option for the DIY user.

For use in the Laundry, Kitchen or Bathroom.
